

MEMORIST WELCOMES ITS FIRST COHORT IN ITS YOUNG GRADUATE PROGRAM

© MEMORIST

MEMORIST recently launched its Young Graduate Program, a training programme designed to develop future professionals in fields preservation and promotion of heritage in all its forms, on an international scale.

As part of its commitment to the transmission of know-how, MEMORIST sees this program as a unique opportunity for young talent wishing to become involved in a meaningful field. The aim is to prepare participants for the exciting challenges of conservation, digitisation and management of heritage projects.

The 18-month course, based in Paris, combines theoretical lessons and practical experience working alongside professionals. It also offers high added-value international assignments, notably in South Africa, Kuwait, Switzerland and Portugal. During this immersion program, participants will discover various fields of heritage preservation, such as audiovisual, photography as well as the digitization of 2D documents and 3D objects. Accompanied by experienced teachers and professionals, they will acquire a solid business culture and the skills they need to move on to more senior positions.

A SPRINGBOARD TO A REWARDING CAREER

On completion of this course, participants will be able to take up positions as Project Managers, Image and Heritage, in their future jobs, or explore

other cross-functional opportunities at MEMORIST, particularly in the fields of communication, public relations or sales.

This program is based on essential values: humility, sharing and commitment.

Joining MEMORIST's Young Graduate Program means becoming an active participant in a mission that transcends the boundaries of the company, helping to preserve our heritage for future generations.

MEMORIST

HERITAGE & BEYOND

FIRST CENTRE OF SKILLS FOR THE CONSERVATION, THE RESTORATION, THE DIGITISATION AND THE SHARING OF HERITAGE

The MOBILITAS group has brought together five leading players to create MEMORIST, the first skills centre for :

Conservation : MEMORIST offers strategic support to holders of heritage collections of all kinds, to establish targeted action plans.

Restoration : MEMORIST traditionally restores all types of ancient documents (parchments, bundles, covers, iconographic documents, film media, etc.) and contemporary documents (administrative documents, audiovisual and film media), in order to prolong their life and restore their appearance which may have altered over time.

Digitalisation : MEMORIST digitises paper, iconographic, audio, video and film documents in 2D, and sculptures, monuments and historic sites in 3D, for the purposes of conservation and distribution to different audiences.

Sharing and communication : MEMORIST facilitates the enhancement of heritage, whether this is historical, documentary or architectural, by relying on a perfect mastery of digital and immersive technologies.

MEMORIST boasts unique know-how which is undeniably recognised in the French market, as well as being resolutely international in scope and part of a group with a presence in more than 100 countries.

Its 300 experts deploy their know-how in France and abroad to support museums, public institutions, private companies and NGOs.

The combination of craftsmanship techniques and innovative technologies supported by human talent means that we can implement tailor-made solutions or large-scale projects.

MEMORIST's achievements in France include the restoration of royal parchments and papal bulls from the Xth century, the 3D digitisation of the Victory of Samothrace at the Louvre museum, the management and preventive conservation of Renault's heritage collections, the exhaustive digitisation of Mont-Saint-Michel abbey and Notre-Dame de Paris and an immersive experience at the Musée d'Orsay using a virtual reality system. On a far larger scale, Memorist has deployed its know-how in Switzerland (UN, TAG Heuer), South Africa (Jagger Library), Kuwait (Ministry of Information), Austria (National Library) and the UNited Arab Emirates (Louvre Abu Dhabi).

MOBILITAS GROUP

Founded 50 years ago and today led by the third generation of the Taïeb and Castro families, the MOBILITAS group is a mid-sized enterprise (ETI) specializing in the mobility of goods and people, physical and digital archiving, and digital preservation of heritage. The group, present in 102 countries, relies on its own network and partner agents to offer its clients an exceptional service in all its areas of activity. The long term reflects its philosophy and culture that guide its major entrepreneurial and investment decisions. Decisions that shape and strengthen the group regularly, leading it to new processes, new professions, and new horizons.
